

Baselode Webinar: Uranium Drill Targets at its Shadow Project

TORONTO, Nov. 30, 2020 /CNW/ - Baselode Energy Corp. ("Baselode" or the "Company") (TSXV: FIND) is pleased to present its latest webinar entitled 'Sykes on Shadow', featuring CEO James Sykes, who details the geological and structural targets at Baselode's 100% owned Shadow project in Saskatchewan's Athabasca region.

The webinar discusses the significance of structures in the Athabasca area and how they are related to uranium deposits, then juxtaposes this interpretation with the recently completed airborne MT survey at Shadow. The webinar also provides an overview on basic structural geology fundamentals and how they relate to Baselode's selection of targets.

About Baselode Energy

Baselode currently controls 100% rights to surface exploration on 71,821 hectares in the Athabasca Basin area, northern Saskatchewan, Canada. Baselode is a uranium exploration company with 40.5 million shares outstanding.

Baselode's Athabasca 2.0 exploration thesis is focused on discovering near-surface, basement-hosted, high-grade uranium orebodies outside of the Athabasca Basin. The exploration thesis is further complimented by the Company's preferred use of innovative and well-understood geophysical methods to map deep structural controls to identify shallow targets for diamond-drilling.

QP Statement

The technical information contained in this news release has been reviewed and approved by Charles Beaudry, P.Geo and géo., Director of Baselode Energy Corp., who is a Qualified Person as defined in "National Instrument 43-101, Standards of Disclosure for Mineral Projects."

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

Certain information in this press release may contain forward-looking statements. This information is based on current expectations that are subject to significant risks and uncertainties that are difficult to predict. Actual results might differ materially from results suggested in any forward-looking statements. Baselode Energy Corp. assumes no obligation to update the forward-looking statements, or to update the reasons why actual results could differ from those reflected in the forward looking-statements unless and until required by securities laws applicable to Baselode Energy Corp. Additional information identifying risks and uncertainties is contained in filings by the Company with Canadian securities regulators, which filings are available under Baselode Energy Corp. profile at www.sedar.com.

This news release does not constitute an offer to sell or a solicitation of an offer to buy any of the securities in the United States.
